Education

Vellore Institute of Technology

B.Tech, Computer Science and Engineering – CGPA: 9.39

Aug 2023 – Aug 2027

Vellore, Tamil Nadu

Experience

Tri-Force Consulting Services Pvt. Ltd.

May 2025 – June 2025

Flutter App Developer Intern

Ahmedabad, Gujarat

- Engineered localization features for the **MLeads** application serving **1,00,000+ users**, implementing dynamic language selection and structuring **1,800+ phrases** across **20 languages** using Flutter.
- Integrated **Firestore Authentication**, real-time push notifications, and cross-device data synchronization, while optimizing Flutter layouts for improved UI consistency and screen utilization.
- Streamlined development in an **Agile** environment by managing **Git/GitHub** pull requests, resolving merge conflicts, and validating localization across **20 locales** through on-device testing and project-lead reviews.

Centre for Social Entrepreneurship and Development, VIT

Apr 2024 – Feb 2025

Core Committee Member

Vellore, Tamil Nadu

- Organized and managed **workshops and tech events** for **200+ students** focused on social entrepreneurship.
- Collaborated with **cross-functional teams** to design initiatives integrating technology and community development.

Projects

RecruitIQ – AI-Powered Resume Screening System | Python, Streamlit, Scikit-learn, FAISS, LangChain— GitHub

- Architected a **3-stage inference funnel** (hard filtering, **LightGBM LambdaMART** ranking, GPT-4o reasoning) processing batch resumes via multi-threaded OCR parsing and **50+ feature** semantic/structural scoring pipeline.
- Optimized retrieval latency using **FAISS** vector indexing and **MD5-based persistence caching**, reducing processing and enabling similarity search and re-ranking over **Sentence-Transformer** (all-MiniLM-L6-v2) embeddings.
- Deployed a recruiter dashboard with **9 AI-powered modules** (explainable reasoning, skill-gap analysis, candidate comparison, automated outreach) on **Streamlit Cloud** with GitHub-triggered deployments ([Live Demo](#)).

ArcHive – Collaborative Architecture Platform | React 19, Vite, Firebase, Supabase, Tailwind CSS— GitHub

- Architected a full-stack platform with a **5-typology content indexing engine** supporting real-time filtering, pagination, and type-aware semantic URL routing.
- Engineered **ArcHive Studio**, a structured authoring workspace featuring a block-based editor, type-aware creation wizard, and **Cloudinary** media pipeline for optimized image delivery and scalable storage.
- Implemented secure **Firebase OAuth + Supabase RLS** authentication with session synchronization via RPC, enforcing cross-user data isolation and **transactional account deletion** across both providers.

EcoMind – Computer Vision Waste Classification App | Flutter, Firebase, TensorFlow Lite— GitHub

- Deployed a fine-tuned **MobileNetV2 (TFLite)** model classifying **13 waste categories** with **92.4% accuracy**, pre-processing camera input to 224×224 tensors for on-device inference at **145ms** latency.
- Integrated **5 AI-powered modules** - real-time waste scanning, AI chatbot with domain-specific topic filtering, eco-marketplace, biodegradability analytics, and gamified sustainability education.
- Architected a modular Flutter app using the **Provider** state pattern with **Firebase Auth + Firestore** for user management, trained on **15,000+ curated images** from the Garbage Classification V2 dataset.
- Built with a multidisciplinary team at the **Yantra Central Hackathon**, advancing to the **final round**.

Technical Skills

Programming Languages: Python, Java, C++, JavaScript

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Frameworks & Technologies: ReactJS, Flutter, Flask, FastAPI, Streamlit, Firebase, Supabase, MySQL, REST APIs, HTML, Tailwind CSS, TensorFlow Lite

AI/ML: Scikit-learn, LangChain, Hugging Face, MLflow, BentoML, Natural Language Processing, Deep Learning, Large Language Models, Vector Databases

Cloud & Tools: AWS (EC2, S3, Lambda, API Gateway, IAM, Rekognition), Docker, Git, GitHub, Postman

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle University)

Jan 2026

Complete Data Science, Machine Learning, DL, NLP Bootcamp (Udemy)

Oct 2025
