Education

Vellore Institute of Technology

B.Tech, Computer Science and Engineering – CGPA: 9.39

Aug 2023 – Aug 2027

Vellore, Tamil Nadu

Experience

Tri-Force Consulting Services Pvt. Ltd.

May 2025 – June 2025

Flutter App Developer Intern

Ahmedabad, Gujarat

- Developed and localized the **MLeads** app by managing **1800+ phrases** across **20 languages** and implementing dynamic language selection.
- Integrated **Firestore Authentication**, real-time notifications, and data synchronization across devices.
- Collaborated with cross-functional teams in an **Agile** environment, maintained a modular Flutter codebase, and managed version control using **Git/GitHub**.

Centre for Social Entrepreneurship and Development, VIT

Apr 2024 – Feb 2025

Core Committee Member

Vellore, Tamil Nadu

- Organized and managed **workshops and tech events for 200+ students** focused on social entrepreneurship.
- Collaborated with **cross-functional teams** to design initiatives integrating technology and community development.

Projects

RecruitIQ – AI-Powered Resume Screening System | *Python, Streamlit, LangChain, FAISS, Scikit-learn*—GitHub

- Engineered an end-to-end AI resume screening pipeline processing **100+ resumes per batch** using OCR, LLM-based parsing, and Sentence Transformer embeddings for semantic candidate retrieval.
- Built a **50+ feature LightGBM ranking pipeline** combining semantic similarity, keyword matching, and heuristic scoring to accurately rank candidates against job requirements.
- Architected a recruiter dashboard with **8+ AI-powered features** including semantic search, candidate comparison, explainable insights, skill-gap analysis, outreach generation, and CSV export.

ArcHive – Collaborative Architecture Platform | *ReactJS, Firebase, Supabase, Tailwind CSS*—GitHub

- Engineered a full-stack collaboration platform enabling architecture students to discover, organize, publish, and bookmark architectural case studies through a centralized digital repository.
- Built scalable search and filtering across **5+ architectural typologies** for efficient content discovery.
- Architected **ArcHive Studio**, a structured content authoring workflow for creating, managing, and publishing architectural repositories.
- Implemented secure authentication, role-based access control, and account lifecycle management using Firebase Auth and Supabase with transactional deletion safeguards.

EcoMind – AI-Powered Waste Classification App | *Flutter, Firebase, TensorFlow Lite* — GitHub

- Engineered an AI-powered waste classification system by fine-tuning and deploying a **MobileNetV2 (TensorFlow Lite)** model achieving **92.4% accuracy** across **13+ waste categories**.
- Trained and evaluated the model on **15,000+ waste images**, enabling efficient on-device inference with **145ms** latency.
- Integrated **5+ intelligent modules**, including an AI chatbot, waste scanner, eco-marketplace, impact analytics dashboard, and gamified sustainability features.
- Developed during the **Yantra Central Hackathon** in collaboration with a multidisciplinary team, advancing to the **final round**.

Technical Skills

Programming Languages: Python, Java, C++, JavaScript

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks

Frameworks & Technologies: ReactJS, Flutter, Flask, FastAPI, Streamlit, Firebase, Supabase, MySQL, REST APIs, HTML, Tailwind CSS, TensorFlow Lite

AI/ML: Scikit-learn, LangChain, Hugging Face, MLflow, BentoML, Natural Language Processing, Deep Learning, Large Language Models, Vector Databases

Cloud & Tools: AWS (EC2, S3, Lambda, API Gateway, IAM, Rekognition), Docker, Git, GitHub, Postman

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

Jan 2026

Oracle University
